Erik:

Good job Erik. You're the best. Thanks for the input and all the time you put into this. We will be using you on all our government work going forward. I promise that will be a nice add to your resume.

Again thanks for all the effort!!!!!!!!!!!!!!!!!!!!

Lastly, I would like to say that you really went above the call here and your efforts on this project were nothing short of spectacular. All of us at Veterans Development Corp thank you as do all the people involved. You really drove this one home and should be very proud of yourself. As a Marine it was an honor to have served under your command and will cherish this part of my life forever. I will always feel what we did with what we had to work with was simply in the end a very special miracle.

Respectfully,  
Veterans Development Corporation, Inc  
Mark V. Voner
